## JACK IS BACK...

JACK IS BACK...

## ...AND BETTER THAN EVER.

JACK is a smart, long-term scoring solution at a budget-friendly price. A unique product packaged with the QubicaAMF tradition of reliability, marketability and upgradability. JACK features 3D animations, alternative games, classic games & sound exciter adding enjoyment to every bowling sequence.

### OVER 300 ANIMATIONS

Featuring brilliant colors, sound, motion and shadows... to complement every ball rolled or event (Strikes, Spares, Gutters, Splits, Converted Splits, Fouls, Junior Rewards, Welcome, Slow Bowling, Please Stay, High-Game Recognition).

### SOUND EXCITER

For animation and games. Make sound exciter adjustments from the Conqueror Pro front desk with the lane-by-lane control of volume.

### BIRTHDAY PACKAGE

Includes birthday-specific animations and on-lane display of the birthday child's picture captured at the Conqueror Pro front desk.

## 6 ALTERNATIVE GAMES:

- **POKER BOWLING** - The all-time favorite Poker game, once played manually, is now system integrated for your league or open bowlers.
- **LUCKY DRAW** - You choose the lucky cards before they play. Instant on-lane winners add spontaneous excitement during open play and on league nights.
- **POGO PIN** - The QUPEE character rides his pogo stick from lane to lane in this exciting visual lottery game – eventually stopping on the lucky winner.
- **SLOT MACHINE** - You set the result (such as rolling a strike) to activate the machine. The 3D, rich looking slot will then spin the reel. Match 3 symbols to win prizes or build points for even bigger rewards.
- **QUBES** - An easy-to-follow animated dice game where the system rolls for you.
- **TIC-TAC-TOE** - Bowlers battle against the computer, and when they win, accumulate points for payouts.

## 6 CLASSIC GAMES:

- **3-6-9** - The traditional game that handles the score modification automatically along with the added benefit of inserting auto-strike in any one of the frames.
- **NO TAP** - Available to be set for values of 7, 8 or 9 whereby the system scores strike or spare even with a lower configurable amount of pins knocked down.
- **ODDS & EVENS** - Based on the No-Tap rules with a difference whereas if you roll an even value your score will be recorded as a strike or spare, or if you roll an odd, then it will remain as it is.
- **LOW GAME** - A game of skill whereby the system scores in reverse and the winner is chosen by the player with the lowest score. Knock down the 7 & 10 pins only in each frame for a perfect game. Reverse means that a gutter will be converted into a strike/spare.
- **BEST BALL** - System automatically carries down the best ball of each frame of a series to produce the best game. A great game for fun style tournaments where the best ball from each player is compared to produce the best team game.
- **BEST FRAME** - Based on the same rules as the Best Ball whereas the system will automatically create a "team" game based on the best frames bowled by that team.

### SPARE FINDERS

There are many to choose from, including regular and glow.
